2. PROCESSES

2.1 CREATE MEMBER LOGIN

Enter Details (form):

Name

Surname

Organization

Designation

Working Group (from drop down)

Contact Details

Mobile

Landline

Address – Address, City, State, Pin...

Submit form

Verify email with OTP

- Verified

- Not verified

If verified:

Forward request to concerned Group Manager for recommendation

- Group Manager recommends

- does not recommend

In both cases request moves to Super User for approval

Super User approves – login created

Super User rejects

User informed by email

Log of user creation created

2.2 ACCOUNT VALIDITY

Account valid for 2 years from date of creation

Do not hard code – validity may be upto a fixed date e.g. 31-07-2024 or duration e.g. 2 years

2.3 CREATE GROUP MANAGER LOGIN

Group manager should have a valid member account, created as above.

Group manager doesn't need to fill another form for Group

Super User from his login will assign role of Group Manager to an existing Member

User informed by email

Log of user creation created

2.4 SWITCH BETWEEN GROUP MANAGER AND MEMBER ROLES

Common login for Group Manager and Member roles

Should have a drop-down/switching box/radio-button to toggle between these 2 roles

Group Manager role option visible only to Group Manager, not to other Members

2.5 SUPER USER LOGIN

Separate login – not related to other roles of Members, Group Manager

Super User cannot switch to other roles – no toggle option available

Login url can also be separate

2.6 SUBSCRIPTION MANAGEMENT PAGE

The page has a table of all the SDOs (ITU, etc.) and their Working Groups with check boxes
Member ticks the check-boxes of the Working Groups for getting email alerts
Member un-ticks the check-boxes of the Working Groups for stopping email alerts
Email Notification sent to Member of subscription added or removed
Log created for the subscriptions added or removed, with date

2.7 NEW CONTRIBUTION UPLOAD BY MEMBER

Working Group-wise upload pages – doc can be uploaded only for that WG
Check if upload window is allowed for that WG?

If YES, then:

Registration of the document/ new contribution to be uploaded – two step process

STEP-1: Registration page form to be filled:

Working Group number – auto-filled from WG page (editing not allowed)

Question no (from drop down)

Work Item No (either existing from drop down else (new proposal))

SG meeting date (from drop down)

Title

Generate Unique No/ID (combination of)

Working group no + Year + Serial no

The User gets a Unique Document No.

Member enters the unique no in the word file to be uploaded (Manually)

STEP-2: Upload the Doc against the Registered Doc – second form:

Enter unique doc no.

Form auto-fills information of the doc (editing not allowed)

Upload document (Word or pdf)

Submit

Email of submission sent to the user

3. Page content

3.1 HOME PAGE

Navigation bar

Bulletin Board

What's New

Event Calendar

FAQ

Images

Dashboard (Recent)

NWG Page Links

Member/ Group Manager login

Forgot password option

...

3.2 WORKING GROUP PAGES

Template for the NWG portal will be there

Data on the page will come from database

If a new working group is created then its page gets created automatically

For content, refer pages on TEC website (e.g. <https://tec.gov.in/nwg-9>)

Content in the page will be

- WG Bulletin Board
- Links to Study Group Page
- Management team details
- Contribution (Table)
- Meeting Details
- Download Public documents
- Template Documents
- Blank Form
- Meeting Circulars

....

3.3 DOWNLOAD PAGES

Refer ITU site for details of download feature

WG-wise download pages/ tables - Every download page has documents of only that WG

Different tables containing documents of different categories

- Contributions
- Minutes of Meetings
- Outcome documents
- Circulars
- Documents from ITU site

....

Data for these tables comes from database

Columns in these tables

- Unique document number
- Title of the document
- Question no
- Item number
- Name of Contributor
- Date of upload
- Status (Public/ restricted)

...
