F.No.- 1-3/2022-IoT/TEC

Dated 17.06.2022

Subject: Minutes of the virtual meeting of National Working Group 20 (NWG-20) corresponding to ITU-T Study Group 20 on "Internet of Things (IoT) and Smart Cities & Communities (SC&C)" (reconstituted for the Study Period 2022-24), held on 14th June 2022, 2:30 PM.

The virtual meeting of the National Working Group 20 (NWG-20) corresponding to ITU-T Study Group 20, reconstituted for the Study Period 2022-24, was held on 14th June 2022 at 2:30 PM through remote participation using C-DOT VC platform. The list of participants is available as *Annexure-1*.

1. Mr. Sushil Kumar, DDG (IoT) welcomed all the participants in the meeting. While briefing about the agenda of the meeting, he said that this is the second meeting of National Working Group 20 (NWG-20), reconstituted for the Study Period 2022-24, corresponding to ITU-T SG-20. First meeting was held on 23rd May 2022. He also mentioned that-
 - a. New comer's session was organized on 3rd June 2022 to familiarize the members with ITU-T SG-20. A presentation was made on the subject.
 - b. It is expected to have larger participation from India (physically/ remote) in the ITU Study Group meetings by submitting more contributions.
 - c. DoT is the state member in ITU from India, just like BIS is member in ISO/ IEC. Officers of TEC recently attended ISO IEC JTC-1/ SC-41 meeting remotely from 30 May- 10 June 2022.
 - d. During the study period 2017-2020, two documents- **ITU-T Recommendation Y Suppl.53 (12/2018)** on IoT Use cases (having five IoT use cases from India and one from Egypt) and **ITU-T Recommendation Y Suppl.56 (12/2019)** on Smart City Use cases (having smart city use cases from Japan, Korea, UK and India), are having significant contributions from India including members from industry, academia and the government. These documents are freely available on ITU website.
 - e. Contributions may either be submitted in the form of a new work item or by proposing changes in the ongoing/ existing work items (temporary documents available on ITU website). It takes generally around 2-3 years for getting them

accepted as an international standard. He also explained about the general template for submitting contributions.

- f. While proposing changes in the ongoing/ existing work items, document needs to be cleaned first and then changes may be proposed in track change mode.
- g. The last date for submitting contributions for next meeting of ITU-T SG-20, 18-28 July 2022, is 5th July 2022.

2. DDG (IoT) shared following ongoing-contributions (downloaded from ITU website) as an example: -

- a. Draft recommendation ITU-T Y.BC-SON '**Framework of Blockchain-based self-organization networking in IoT environments**'- output draft of Q2/20 Rapporteur e-meeting, April 2022.
- b. Draft recommendation ITU-T Y.scdt-reqts '**Requirements and capabilities of a digital twin system for smart cities**'- output draft of Q2/20 Rapporteur e-meeting, April 2022.
- c. Draft recommendation ITU-T Y.AEDS-smarthome '**Requirements and capability framework of abnormal event detection system for smart home**'- output draft of Q2/20 Rapporteur e-meeting, April 2022.
- d. Draft recommendation Y.IIoT-infra-SM-fr '**Requirements and framework of Industrial IoT (IIoT) infrastructure for smart manufacturing**'- output draft of Q2/20 Rapporteur e-meeting, April 2022.
- e. Draft Supplement ITU-T Y.Sup.SmartAgri-usecases, '**Use cases of IoT based smart agriculture**', - output draft of Q2/20 Rapporteur e-meeting, 7-12 April 2022.

3. Changes proposed in Draft recommendation on work item ITU-T Y.SRC '**Requirements for deployment of smart service in rural communities**' were discussed and the contribution was finalized for submitting in the forthcoming meeting of ITU-T SG-20, 18-28 July 2022. DDG (IoT) mentioned that TEC is working on this work item from the past 2 years and is expected to be completed by Dec 2022.

Mr. Pranav Singh, Idemia presented his input on the security related section of this work item.

This draft contribution was agreed in the meeting for further submission in SG-20.

4. Ms. Radhika, NCCS asked "can the contribution be an idea/proposal on theoretical basis or need to be worked out practically and propose?" DDG (IoT) replied that proposal is expected to have an innovative idea, which may be practically implementable in future.
5. DDG (IoT) said that members may express their willingness to work on any of the draft recommendations available on ITU-T SG-20 website. Cleaned versions of the drafts of these contributions will be shared with them accordingly.
6. While summarizing the discussions held during the meeting, DDG (IoT) also mentioned that the cleaned versions of the draft documents discussed in this meeting as listed at point no. 2 will be forwarded to all the members. Members may go through them and submit their contributions in track change mode only. Contributions will then be discussed in the next NWG-20 meeting before submission to ITU-T SG-20 meeting.

In the end, DDG (IoT) thanked all the participants for attending the meeting.

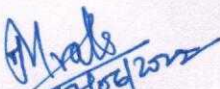

Way Forwards:

1. Next meeting will be held on **23rd June 2022, 2:30 PM.**
2. Members may submit their contributions in track change mode only by 22nd June 2022.

This is issued with the consent of DDG (IoT).

Encl: As above

Hindi version shall follow.
