No. 8-1103/2022-R/TEC

Date: ²⁵~~XX~~/05/2023

Sub: Minutes of the National Working Group-5 meeting held on May 22, 2023.

The meeting of National Working Group- 5: Environment, Climate Change and Circular Economy was held on May 22, 2023 to consider study items and contributions to be sent to ITU-T SG-5 meeting scheduled to be held at Sophia Antipolis, France from 13-23 June, 2023.

The list of participants in the meeting is given in Annexure.

1. The meeting was chaired by Shri Avinash Agarwal, DDG (Radio), TEC. He welcomed the participants and briefed them about the scope of ITU-T SG-5 and the questions under consideration.
2. It was followed by a brief introduction by Mr. Anshul Kr. Gupta, AD(Radio), TEC on the contributions received from NWG-5 members for upcoming SG-5 meeting which are as below:
 - a) New work item for the creation of a Supplement to Recommendation ITU-T L.1700 on the subject of Low-cost sustainable telecommunication for rural communications in developing countries enabling SIP based voice calling on Wi-Fi/WLAN against Q12/5.
 - b) Proposal of the content for the draft ITU-T Recommendation K.devices against Q3/5.
 - c) Proposal of the modification in content for Draft Supplement ITU-T L.Suppl.ICIP "Best practices for implementing the circular economy in ICT management" against Q7/5.
 - d) Proposal of the modification in content for Draft Recommendation ITU-T L.CArural "Low-cost sustainable ICT solutions for climate change adaptation in rural areas and communities" against Q12/5.
 - e) Proposal of the modification in content for draft Recommendation ITU-T L.NZ solutions "Best practices to achieve Net Zero with information and communication technologies" against Q11/5

- f) Proposal for update in baseline text of draft revised recommendation K.60 "Emission levels and test methods for wireline telecommunication networks to minimize electromagnetic disturbance of radio services" against Q4/5.

3. The detailed discussion of the above contributions is as below:

Question	Contribution	Discussion
12/5	New work item for the creation of a Supplement to Recommendation ITU-T L.1700 on the subject of Low-cost sustainable telecommunication for rural communications in developing countries enabling SIP based voice calling on Wi-Fi. Contributor: 1. Neha Upadhyay TEC, DoT 2. Sandeep Agarwal CDOT	The contribution was presented by Ms. Neha Upadhyay, Director (Radio), TEC and Shri Sandeep Agarwal, C-DoT. This contribution seeks to propose creation of a new Work Item under Question 12/5 for formulation of a new Supplement to Recommendation ITU-T L.1700 on the subject of Low-cost sustainable telecommunication for rural communications in developing countries enabling SIP based voice calling on Wi-Fi/WLAN. The contribution was discussed and recommended for submission to ITU-T SG-5 with some minor editorial modifications in A.1 Justification.
3/5	Proposal of the content of the draft ITU-T Recommendation K.devices Contributor: 1. Neha Upadhyay TEC, DoT 2. Bhoomika Gaur TEC, DoT	The contribution was presented by Ms. Neha Upadhyay, Director (Radio), TEC and Ms. Bhoomika Gaur, ADG(Radio), TEC. This contribution proposes content to certain sections of the work item of new draft Recommendation ITU-T K.devices. The contribution was discussed and recommended for submission to ITU-T SG-5 with some minor editorial modifications.
7/5	Proposal of the modification in content for Draft Supplement ITU-T L.Suppl.ICIP "Best practices for implementing the circular economy in ICT management" Contributor: 1. Avadhesh Singh TEC, DoT 2. Ziaur Rahman TEC, DoT	The contribution was presented by Shri Ziaur Rahman, ADET (6G), TEC. In this contribution, the initial draft for Supplement L.Suppl.ICIP - "Best practices for implementing the circular economy in ICT management" has been improved and enriched with content to bridge the gap which includes addition of new use cases for circular practices, detailing under heading of public donation of decommissioned ICT devices, communal involvement, policy mechanism, implementation of the circular economy. Further a new section "Challenges in Implementation of the circular economy" has also been added in this contribution.". The contribution was discussed and some changes were suggested by NWG-5 Chair i.e. removal of specific Industry, country names in

		baseline text. The contribution was recommended for submission to ITU-T SG-5 after incorporating modifications suggested during the meeting.
12/5	Proposal of the modification in content for Draft Recommendation ITU-T L.CArural "Low-cost sustainable ICT solutions for climate change adaptation in rural areas and communities" Contributor: 1. Sujit Kumar TEC, DoT 2. Ziaur Rahman TEC, DoT	The contribution was presented by Shri Ziaur Rahman, ADET (6G), TEC. In this contribution, the draft Recommendation ITU-T L.CArural has been improved by adding new section and content under existing section. It includes addition of new section on 'Challenges and Way forward' and detailing under heading of 'Proposed Technologies', 'Adaptation and Sustainability Activities', 'Recommendations and future use'. The contribution was discussed and some changes were suggested by NWG-5 Chair and other members in baseline text. The contribution was recommended for submission to ITU-T SG-5 after incorporating modifications suggested during the meeting.
11/5	Proposal of the modification in content for draft Recommendation ITU-T L.NZ solutions "Best practices to achieve Net Zero with information and communication technologies" Contributor: 1. Avadhesh Singh TEC, DoT 2. Sujit Kumar TEC, DoT	The contribution was presented by Shri Ziaur Rahman, ADET (6G), TEC. In this contribution, the updated draft Recommendation ITU-T L.NZ solutions "Best practices to achieve Net Zero with information and communication technologies has been improved and enriched with content to bridge the gap which includes addition of new section on Agriculture Sector as well as on Practices example for Agriculture sector and detailing under heading of Practice example for Industry (ICT sector)". The contribution was discussed and some changes were suggested by NWG-5 Chair i.e removal of specific Industry, country names in baseline text. The contribution was recommended for submission to ITU-T SG-5 after incorporating modifications suggested during the meeting.
4/5	Proposal for update in baseline text of draft revised recommendation K.60 "Emission levels and test methods for wireline telecommunication networks to minimize electromagnetic disturbance of radio services" Contributor: 1. Dr. R Lenin Raja AA Electro Magnetic Test Laboratory India 2. Anshul Kr. Gupta	The contribution was submitted in the meeting by Shri Lenin Raja, AAEMT Lab. NWG-5 chair allowed this contribution for discussion. The contribution was presented by Shri Lenin Raja. This contribution proposes modifications in baseline text of draft revised recommendation ITU-T K.60. The contribution was discussed and some modifications was suggested by one of NWG members Shri Anshul Kr. Gupta. It was decided to circulate the modified contribution among NWG-5 members for comments, if any. It was agreed that if no comments are received this contribution may be recommended for submission to ITU-T SG-5

	TEC, DoT	meeting after incorporating the modifications suggested during the NWG-5 meeting.
--	----------	---

4. AD(Radio) informed the members that all contributions after incorporating suggestions received in NWG-5 meeting, will be put up for approval so that the same can be submitted to ITU-T SG-5 meeting from 13-23 June, 2023 .
5. The Chairman further emphasized that there are questions related to other important work areas under SG-5 and members should proactively take up work related to these work areas and form working Groups as required.
6. Lastly, the Chairman thanked all the members in the meeting for their active participation and contributions during the meeting. The meeting concluded with thanks to the Chair.

(Neha Upadhyay)
Convener, NWG-5

To,

All members of NWG-5

Annexure

Following members participated in the NWG-5 meeting held on 22/05/2023:

1. Dr Lenin, AAEMT lab
2. Sandeep Agrawal (C-DOT)
3. Dr. Vinosh James, QC & 5GIF
4. Satyan Agarwal, IIT Ropar
5. Dr. Sam Darshi, IIT Ropar
6. Harshit Pal
7. Avinash Agarwal, TEC, DDG Radio
8. Avadhesh Singh, Director(Radio)
9. Neha Upadhyay, Director(R-I)
10. Bhoomika Gaur, ADG Radio
11. Ziaur Rahman, ADET(6G), TEC
12. Anshul kr. Gupta, AD, TEC
