It is also desirable for all Bank, PSP, NPCI, and NIPL participants to bring the document into proper shape. As per the TD306, a new proposal for UPI payments for P2P and P2M through mobile application framed in a structured format, certain inputs are

required from RBI, NPCI and others to complete the document before uploading for discussion in Mexico City. Looking for the inputs for further deliberations before filling the skeleton part of the document, which required financial regulations to be part of the global standard document.
