1. National Working Group 13 – corresponding to ITU-T SG13: Future networks and emerging network technologies

The NWG13 considered input contributions during its virtual meeting held on 8 – 9 February 2023 under the chairmanship of Abhay Shanker Verma, DDG (MT), TEC. The group adopted the agenda in **NWG13-Agenda-4-R1**.

The objectives for this meeting were:

- To review the progress of on-going work items in ITU-T SG13 (Y.Arch_NGNe_ncp, Y.Trust-Registry, Y.ML-IMT2020-MLFO);
- To discuss others (based on contribution received - Y.supp.QKDN-roadmap, Supporting contribution for extension of lifetime of FGAN).

NWG13 discussed 5 contributions. NWG13 made progress on 3 draft Recommendations and updated draft supplement Y.supp.QKDN-roadmap. At the meeting, NWG13 produced 6 output documents including this meeting report.

The main results of the meeting are the following:

- The updated text for the draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”;
- The updated draft Recommendation ITU-T Y.Trust-Registry, Trust Registry for Devices and Applications: requirements, architectural framework;
- The updated text for the draft new Recommendation Y.ML-IMT2020-MLFO “Architectural framework for MLFO in future networks including IMT-2020”
- The updated draft Supplement ITU-T Y.supp.QKDN-roadmap, Standardization roadmap on Quantum Key Distribution Networks;
- Supporting contribution for extension of lifetime of FGAN based on last contribution in ITU-T SG13 submitted in November 2022 meeting;
- NWG13 meeting report (**NWG13-Report-04**).

2. Results

2.1 Contributions for Approval

Five contributions were presented by respective contributors for consideration of NWG13, so that the same could be submitted to ITU-T SG13 after approval of Competent Authority within the prescribed deadline of 28 February 2023 for deliberation in March 13-24, 2023 meeting at Geneva.

2.2 Other documents for Approval

No Appendices, Supplements, Implementers’ Guides or Technical Papers were proposed by NWG13 for approval at this meeting.

3. Outgoing liaison statements

No outgoing liaison statements were proposed by NWG13 for approval at this meeting.

4. Discussions

4.1. Y.Arch_NGNe_ncp

Base document: **SG13-TD140/WP3**

C-XX1	Rashmi Kamran	Draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”.	Q2/13
-------	---------------	---	-------

- This contribution proposes updated text for the draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”.

Meeting result

- The meeting agreed to accept the proposed text after addition of a NOTE clarifying that the proposed change in the NGN architecture is not going to impact the signalling with end user devices and also updated References and addition of one definition in respect of “resource”.

4.2. Y.Trust-Registry

Base document: **Q16-13-Jan23-DOC-46-Y.Trust-Registry**

C-XX2	Sharad Arora	Draft Recommendation ITU-T Y.Trust-Registry: “Trust Registry for Devices and Applications: requirements, architectural framework”.	Q16/13
-------	--------------	--	--------

- This contribution proposes updated text for the draft Recommendation ITU-T Y.Trust-Registry: “Trust Registry for Devices and Applications: requirements, architectural framework”.

Meeting result

- The meeting agreed to accept the proposed text in the contribution with minor editorial changes.

4.3. Y.ML-IMT2020-MLFO

Base document: **TD181**

C-XX3	Vishnu Ram O V	Draft Recommendation Y.ML-IMT2020-MLFO “Architectural framework for MLFO in future networks including IMT-2020”.	Q20/13
-------	----------------	--	--------

- This contribution proposes updated text for the draft new Recommendation Y.ML-IMT2020-MLFO “Architectural framework for MLFO in future networks including IMT-2020”.

Meeting result

- The meeting agreed to accept the proposed text in the contribution.

4.4. Y.supp.QKDN-roadmap

Base document: **Q16-13-Jan23-DOC-41-Y.supp.QKDN-roadmap**

C-XX4	Rakesh Goyal	Draft new Supplement to ITU-T Y-series Recommendations: “Standardization roadmap on Quantum Key Distribution Networks”.	Q16/13
-------	--------------	---	--------

- This contribution updates the status of work program of relevant SDOs on QKDN in the draft Supplement ITU-T Y.supp.QKDN-roadmap “Standardization roadmap on Quantum Key Distribution Networks”.

Meeting result

- The meeting agreed to accept the proposed text in the contribution.

4.5. Supporting contribution for extension of lifetime of FGAN

Base document: **T22-SG13-C-0214-R1**

C-XX5	Vishnu Ram O V	Supporting contribution for extension of lifetime of Focus Group on Autonomous Networks.	QAII/13
-------	----------------	--	---------

- This contribution, while supporting the proposal to extend the lifetime of the Focus Group on Autonomous Networks, provides a detailed set of inputs to the proposal. Derived from the work at ITU-T FG AN use cases and architecture and considering the important contributions from India on this topic, this contribution highlights future opportunities for students and professionals under - use cases, architecture and proof of concept.

Meeting result

- The meeting agreed to accept the proposed contribution, with addition of some texts suggested by Mr. Vivek Narayan.

4.6. Incoming liaisons, and others

None.
