Meeting Notice

Subject: First meeting of National Working Group (NWG)-11 corresponding to ITU-T SG-11 “Signalling requirements, protocols, test specifications and combating counterfeit products” for study period 2025-2028.

Telecommunication Engineering Centre (TEC) has re-constituted National Working Group (NWG)-11 corresponding to ITU-T SG-11 titled “Signalling requirements, protocols, test specifications and combating counterfeit telecommunication/ ICT devices” for the study period 2025-2028.

2. The meeting of ITU-T Study Group (SG)-11 for the period 2025-2028 is scheduled to be held from 19-28 February 2025 in Geneva, Switzerland.

3. In view of the above, an introductory meeting of National Working Group (NWG)-11 is scheduled as per below details to discuss about the ITU-T SG-11 and the contributions (if any) for the same. The link of the meeting is given below:

Meeting Date & Time: **26.12.2024 at 03:00 PM**

Meeting Link: <https://cdotmeet.cdot.in/vmeet/arj-itb-pyz-kcr>

4. The contributions (if any) can be submitted to adgtc2-tec-dot@gov.in with a copy to dirta.tec@gov.in latest by 25.12.2024.

5. More details about ITU-T SG-11 are available at Annexure-A (enclosed).

All NWG-11 members are kindly requested to make it convenient to attend the meeting.

KHUSHBOO SHARMA

Encl: As above

To (through email),

1. All members of NWG-11

Copy to (through email):

1. Sr. DDG & Head, TEC- for kind information pl
2. Chair ITU-T SG-11- for kind information pl
3. DDG (TC), TEC & Chair NWG-11 - for kind information pl
4. AD(IT), TEC- for uploading it on TEC website.

Telecommunication Engineering Centre (TEC) has re-constituted National Working Group (NWG)-11 corresponding to ITU-T Study Group-11 titled **“Signalling requirements, protocols, test specifications and combating counterfeit telecommunication/ ICT devices”** with an objective to contribute to ITU-T SG-11 activities keeping in view the interest of Indian Telecommunications. The NWG-11 will build consensus and harmonize the interests of various stakeholders, and proactively make contributions to ITU-T on the below mentioned questions:

- i. Q1/11: Signalling and protocol architectures for telecommunication networks and guidelines for implementations with emerging technologies.
- ii. Q2/11: Signalling requirements and protocols for services and applications in telecommunication environments.
- iii. Q3/11 : Signalling requirements and protocols for emergency telecommunications.
- iv. Q4/11: Protocols for control, management and orchestration of network resources.
- v. Q5/11: Signalling requirements and protocols for border network gateway in the context of network virtualization and intelligentization.
- vi. Q6/11: Protocols supporting control and management technologies for International Mobile Telecommunications networks.
- vii. Q7/11: Signalling requirements and protocols for network attachment and edge computing for future networks, IMT-2020 network and beyond.
- viii. Q8/11: Protocols supporting distributed content networking, information centric network (ICN) technologies for future networks, IMT-2020 network and beyond.
- ix. Q12/11: Testing of Internet of Things (IoT), its applications and identification systems.
- x. Q13/11: Monitoring and measuring parameters for protocols used in emerging networks, including cloud/edge computing and software-defined networking/network function virtualization (SDN/NFV).
- xi. Q14/11: Testing of cloud/edge computing, software-defined networking (SDN) and network function virtualization (NFV).
- xii. Q15/11: Combating counterfeit and stolen telecommunication/ICT devices and their software.
- xiii. Q16/11: Test specifications for protocols, networks and services for emerging technologies, including benchmark testing and federated testbeds.

Further details about ITU-T SG-11 can be found at below link:
