Government of India
Department of Telecommunications
Telecommunication Engineering Centre
Khurshid Lal Bhawan, Janpath New Delhi-110001

Dated: 30.01.2025

Subject: Minutes of 3rd meeting of NWG-11 corresponding to ITU-T SG-11 on ‘Signalling requirements, protocols, test specifications and combating counterfeit products’ for the Study period 2025-2028-reg.

The 3rd virtual meeting of National Working Group (NWG)-11 corresponding to ITU-T Study Group-11 for the study period 2025-2028 was held on 28.01.2025 at 15:00 PM under the Chair-ship of DDG(TC), TEC. The meeting was attended by the members working in various domains and the list is enclosed at **Annexure-A**.

2. At the outset, Sh. Rakesh Goyal, ADG(TC-II) welcomed the members and briefed about the agenda of the meeting; i.e. to review and finalize the contributions from the NWG-11 members for the upcoming ITU-T Study Group 11 meeting to be held from 19-28 February, 2025.

3. The members were requested to provide any further inputs on the contributions deliberated in the 2nd NWG-11 meeting and the updated contributions, received thereof. The details of the discussions held are as below:

S.No.	Details of Contribution	Deliberations
1	Proposal to advance the draft Supplement ITU-T Q.Suppement.75-Rev “Use cases on the combat of counterfeit ICT and stolen mobile devices”	Regarding the proposed modification of the date from August 28, 2017, to August 25, 2017, for the enforcement of rules pertaining to the Prevention of Tampering of the Mobile Device Equipment Identification Number, Shri Biren Karmakar highlighted that the Gazette Notification pertaining to the rules was published on 28 Aug 2017. It also mentions that the rules shall come into force on the date of their publication in the official Gazette. The contribution was therefore accordingly modified.
2	Proposal for creation of new work item “Method for Verifying Conformance to SRv6”	Shri Biren Karmakar proposed some editorial modifications in the A-1 justification, Summary, etc. The contributor was requested to make the necessary modifications and send the updated contribution.

3	Proposed new work item on ITU-T Q.NB-IoT.HMT – “Requirements and Framework for testing of NB-IoT Interface in IoT devices operating in Sub-6GHz and FR2 mode”	Shri Anshul Kumar Gupta and Shri Krishna Kumar Lahoti, highlighted that the contribution lacks gap analysis and doesn't include references related to the existing SDO's (3GPP/ETSI, etc) recommendations. Further, the scope of the proposed work item is not clearly specified. It was also suggested that the proposed contribution can be included in the other new work item being proposed related to “Test Framework for Conformance Testing of IoT protocols used in IoT networks”. Further, Shri Anshul Kumar Gupta, being a rapporteur of Q12/11 under which the work item is being proposed, suggested that he will try to initiate a non-informative proposal during the ITU-T SG11 meeting related to the above and thereafter, based on the discussion, the contribution could be prepared and submitted in the next SG-11 meeting.
4	Proposal to advance the Recommendation ITU-T Q.GIR “Technical requirement and implementation strategy for Global International Mobile Equipment Identity Registry”	No further inputs on the updated contributions were received during the meeting.
5	Proposal to advance the Recommendation ITU-T Q.FC-MCM: Framework for combating Multimedia Content Misappropriation.	No further inputs on the updated contributions were received during the meeting.
6	Proposal to advance the Recommendation ITU-T Q.F-MSCF : Framework on the use of market surveillance for combat counterfeit Telecommunications/ICT equipment.	No further inputs on the updated contributions were received during the meeting.
7	Proposal to advance the Technical Report ITU-T TR-CF-QoS : Impact of Counterfeit Mobile devices on Quality of Service.	No further inputs on the updated contributions were received during the meeting.
8	Proposal for advancement in the baseline text of draft Recommendation ITU-T Q.IEM_arch_req “Reference architecture and signalling requirements for interactive emergency messaging through mobile network”.	No further inputs on the updated contributions were received during the meeting.

9	Proposal to advance the baseline text of Draft Recommendation ITU-T Q.Req_Frame_RRDN "Requirements and framework for rapid response to sudden natural disasters in network".	No further inputs on the updated contributions were received during the meeting.
---	---	--

Table 1

4. The members were informed about the suggestions received from Shri Tejpal Singh, ITU-T SG 11 Chair & Advisor, TRAI: To prepare possible questions specially for new work items covering gaps in existing recommendations/ ongoing work items, relevance to the concerned Question and quote the WTSA-2024 / PP-2022 resolutions wherever relevant/applicable during presentation.

5. Further, the following new contributions were presented and deliberated upon during the meeting:

S.No.	Details of Contribution	Deliberations
1	Proposal to advance baseline text of new work item ITU-T Q.MUD_IoT "Framework for testing and monitoring IoT devices & networks using technical Requirements from Manufacturer Usage Description (MUD)"	The contribution was presented by Shri Krishna Kumar Lahoti, CNLABS. Shri Rakesh Goyal suggested that the proposed modifications may be done in the track change mode and the updated contribution may be submitted.
2	A1 Justification- Proposal for creation of new work item Q.TFCT_IoT "Test Framework for Conformance Testing of IoT protocols used in IoT networks"	The contributions pertaining to A1 justification and the first baseline text for the new proposed work item Q.TFCT_IoT was presented by Shri Anshul Kumar Gupta, ADET, TEC. Shri Krishna Kumar Lahoti, CNLABS suggested to add an additional category for the IoT protocols which are not covered under the two categories proposed viz. IoT data protocols and Network protocols for IoT. The contributor was requested to make the necessary modifications and send the updated contribution to NWG-11.
3	First baseline text of draft new Recommendation ITU-T Q.TFCT_IoT "Test Framework for Conformance Testing of IoT protocols used in IoT networks"	
4	A1 Justification - Proposal to start a new work item - Q.QKDN_Kq2 "Protocols for Kq-2 interfaces for quantum key distribution networks"	The contributions pertaining to A1 justification and the first baseline text for the new proposed work item Q.QKDN_Kq2 was presented by Shri Rakesh Goyal, ADG, TEC. Some minor modifications were proposed during the meeting which were incorporated thereto.
5	First baseline text of draft new Recommendation Q.QKDN_Kq2 "Protocols for Kq-2 interfaces for quantum key distribution networks"	
6	Proposal for advancement in baseline	The contribution was presented by Shri

	text of draft Recommendation ITU-T Q.URRM “User requirements and reference model for Testbed as a Service”	Rakesh Goyal, ADG, TEC. Shri Anshul Kumar Gupta suggested to check the ongoing work items related to AI/ML Integration in TaaS and modify the relevant para, if required.
7	Proposal for liaison with ITU-T SGs for implementation of resolution 76 in respect of list of candidate ITU T Recommendations	The contribution was presented by Shri Anshul Kumar Gupta, ADET, TEC for submission in the Conformity Assessment Steering Committee (CASC).

Table 2

6. The above contributions except the contribution related to proposed new work item on ITU-T Q.NB IoT.HMT [at S.No. 3 of Table 1] were agreed upon by the members.

7. At last, Shri Ajay Nema, DDG(TC) & Chair NWG-11 thanked all the members for their valuable contributions. Further, based on the deliberations during the meeting, the concerned members were requested to send the updated contributions by 29.01.2025 to process the case for approval of the contributions for submission to the ITU-T SG11 meeting within time.

8. This issues with the approval of Chair, NWG-11.
