विषय: Constitution of National Working Group (NWG)-16 corresponding to ITU-T Study Group-16 regarding "Multimedia and related digital technologies" for the Study Period 2022-2024

Telecommunication Engineering Centre (TEC) is the nodal agency of Department of Telecommunications (DoT), Government of India, for constituting various National Working Groups (NWGs) corresponding to respective International Telecommunication Union (ITU-T) Study Groups.

TEC is pleased to announce the constitution of National Working Group (NWG)-16 corresponding to ITU-T Study Group 16. In the study period 2022-2024, the title of SG16 is: "Multimedia and related digital technologies". The list of members of NWG-16 are placed in Annexure-I.

The objective of the NWG-16 is to contribute to ITU- SG 16 activities keeping in view the interests of Indian Telecommunications. The NWG-16 will build consensus and harmonize the interests of various stakeholders, and proactively make contributions to ITU-T, on "Multimedia and related digital technologies". The complete mandate of ITU-T SG16 for the study period 2022-2024 is available at:

<https://www.itu.int/en/ITU-T/studygroups/2022-2024/16/Pages/default.aspx>

The first meeting (online mode) of NWG-16 for the current period is likely to be held in first week of July-2022. The meeting notice and the online link will be shared separately. All the members are requested to examine the current study questions and choose questions of your preference/ choice/ area of working, out of the Questions listed under ITU-T Study Group-16 (also attached herewith as Annexure-II for ready reference) and furnish your contributions/ inputs to diri.tec@nic.in and ddgi.tec@gov.in.

(Mahmood Ur Rehman)
Director (IT), TEC

To,
All members NWG-16 for ITU-T SG16

Copy to:

- i) Member (Services), DCC, DoT, New Delhi- for kind information
- ii) Sr. DDG TEC- for kind information

ANNEXURE-II

List of Questions under study in ITU-T Study Group-16

Q1/16: Multimedia and digital services coordination

Q5/16: Artificial Intelligence enabled multimedia applications

Q6/16: Visual, audio and signal coding

Q8/16: Immersive live experience systems and services

Q11/16: Multimedia systems, terminals, gateways and data conferencing

Q12/16: Intelligent visual systems and services

Q13/16: Content delivery, multimedia application platforms and end systems for IP based television services including digital signage

Q21/16: Multimedia framework, applications and services

Q22/16: Multimedia aspects of distributed ledger technologies and e-services

Q23/16: Digital culture-related systems and services

Q24/16: Human factors for intelligent user interfaces and services

Q26/16: Accessibility to multimedia systems and services

Q27/16: Vehicular multimedia communications, systems, networks, and applications

Q28/16: Multimedia framework for digital health applications
