No.: 5-2/2021-TS/TEC

Dated: 11.05.2023

Subject: Minutes of meeting of National Working Group-17 held on 08.05.2023

The **Seventh meeting of National Working Group -17** was held virtually on 08.05.2023 from 3:00 PM onwards. The members from Industry, Association, Academia (IITs), National Security Council Secretariat (NSCS) etc. and various units of Department of Telecom viz. DoT HQ, TEC, NCCs participated in the meeting. The list of participants is placed at Annexure-1.

1. To begin with, Sh. Shashi Mohan, DDG (TS), DoT and Chairman of NWG17, welcomed all the participants and brief the participants about the agenda of the meeting.
2. Mrs. Preetika Singh, Dir. (TS) gave a presentation to NWG 17 members about the contributions which were submitted in last ITU-T SG 17 meeting held on 21 February - 03 March 2023 at Geneva. The summary of contributions are as follows:
 - i) X5Gsec-srocv: "Security Requirements for the Operation of 5G Core Network to Support Vertical Services"- published as TD 969.
 - ii) X.sc-dlt: "Security controls for distributed ledger technology- published as TD-940.
 - iii) Xsc-iot: "Security Controls for Internet of Things (IoT) systems" published as TD 1032.
3. It was also briefed that X.sc-dlt: "Security controls for distributed ledger technology" most likely will be finalised in the upcoming Meeting at Goyang from 29 August - 08 September 2023.
4. Dir. (TS) also briefed about the seven newly initiated work items in ITU-T SG 17. The details are given below:
 - I. Security requirements and guidelines of application and service for smart city platform
 - II. X.DLT-ccs-fr: Security requirements and framework of cross-chain service for DLT systems
 - III. X.st-ssc: Security threats of software supply chain
 - IV. Security features to assess mobile terminal security
 - V. Technical Report: Overview of end to end key management for Quantum-safe communications
 - VI. QKD protocols (Considerations on standardization of QKD protocols)

VII. Sec_QKDN_profr: Framework of quantum key distribution (QKD) protocol in QKD network

Mail regarding these work items is already sent to NWG-17 members. Contributions have been invited from NWG members to work on these work items as per their interest to increase the Indian presence in ITU standardization platform.

5. Sh. Somnath Tripathi, Prof. IIT Patna gave brief about his contribution on X.DLT-ccs-fr: Security requirements and framework of cross-chain service for DLT systems. The presented contribution is in preliminary stage and will be refined further. Inputs were also invited on this work item.

6. Sh. Ram Raju Chelle, Dir. (QT), TEC has presented following contribution:

- I. "Threat analysis and Management of Security Profiles of trusted nodes of QKD systems".
- II. "Threat analysis and management of security profile of PQC systems".
- III. "Threat analysis and management of security profile of QRNG systems".

These were proposed as new work items of Q15 of SG 17. Inputs were also invited on the work items. He also invited members of NWG 17 to work on the above contributions.

7. DDG (TS) requested that these contributions should be properly developed so that the same may be discussed in the next meeting. He also stated that Since Quantum Technology also pertains to SG 13. The work items of Director (QT) may also be examined with the scope and ambit of NWG-13.

8. ADET (TS) gave the vote of thanks to the Chairman and all the NWG-17 members.

Preetika Singh 11.5.23

Dir. (TS) & Convenor NWG-17
