F.No.-1-3/2022-IoT/TEC

Dated: 13th June 2024

Subject: Minutes of virtual meetings of National Working Group 20 (NWG-20) corresponding to ITU-T Study Group 20 on “Internet of Things (IoT) and Smart Cities & Communities (SC&C)” for the Study Period 2022-24, held on 7th June 2024, 11:00 AM and 12th June 2024, 12 noon.

The 22nd virtual meeting of the National Working Group 20 (NWG-20) corresponding to ITU-T Study Group 20 was held on 7th June 2024 at 11:00 AM. Considering the request received from members to allow them to present the contributions received just before the meeting and few additional contributions expected from the members, it was decided to have another meeting, to have the remaining presentations. Accordingly, next meeting (23rd meeting of NWG-20) was scheduled on 12th June 2024 at 12:00 noon to discuss the remaining contributions. These meetings were held through remote participation using C-DOT VC platform. The list of participants of NWG-20 meeting on 7th June 2024 and 12th June 2024 are available in *Annexure-1* and *Annexure-2* respectively.

1. Mr. R. S. Singh, DDG (IoT) welcomed all the participants in the meeting. While briefing about the agenda of the meeting, he mentioned that:-
 - i. The next meeting of ITU-T SG-20 meeting will be held from 1-12 July 2024 in hybrid mode at Geneva. The last date for submission of contributions in this meeting is 18th June 2024. Members having TIES account are requested to register for this meeting (<https://www.itu.int/en/ITU-T/studygroups/2022-2024/20/Pages/default.aspx>).
 - ii. List of on-going work items under ITU-T SG-20 have already been circulated to all the members.
 - iii. There are total seven questions (work areas) under SG-20. More details about the structure of SG-20 are available on <https://www.itu.int/net4/ITU-T/lists/sgstructure.aspx?Group=20&Period=17>.
 - iv. World Telecommunication Standardization Assembly (WTSA)-2024 will be hosted by DoT from 15 to 24 October 2024 in New Delhi, India. It will define the roadmap for standardization activities under ITU-T for the study period 2025-28. He requested members to register for this event (<https://www.itu.int/wtsa/2024/>). Indian contributions on revision of WTSA Resolution 98 (Enhancing the standardization of Internet of Things and smart cities and communities for global development) and Resolution 65 (Calling party number delivery, calling line identification and origin identification information) were further discussed and presented in detail in the 3rd meeting of APT

Preparatory Group for WTSA-24 (APT WTSA24-3), held from 30th April to 2nd May 2024 and Virtual Interim Meeting of Working Group 3 of the APT WTSA-24, held from 27 to 29 May 2024. India will be working as a co-leader in both these resolutions.

- v. Eight contributions have been received for discussion in the NWG-20 meeting on 7th June 2024. Two contributions which were received late, will be discussed in NWG-20 meeting on 12th June 2024.
Further, DDG (IoT) informed that six contributions have been received for discussion in NWG-20 meeting on 12th June 2024. The contributions discussed and finalized in these NWG-20 meetings will be further submitted to upcoming ITU-T SG-20 meeting, 1-12 July 2024.
 - vi. It is required to increase contribution and participation from India in the standardization activities at international level to accommodate country specific requirements and use cases.
2. The following contributions were discussed and presented in the NWG-20 meeting held on 7th June 2024-
- i. Mr. Shekhar Singh, BSNL presented two contributions on Revision of TD945-R1 of work item ITU-T Y.IoT-SQMS "Requirements and functional architecture of IoT sensing quality management service" and on Revision of TD 1226 of work item ITU-T Y.PGComNet-Reqs "Requirements of IoT-based power grid communication network". The suggestions given by members in the meeting were noted and he was requested to send the updated contributions.
 - ii. Mr. Pranav Singh, M/s IDEMIA presented his updated contribution on Revision of TD914-R2 of draft Technical Report ITU-T YSTR.HTSA-overview "Overview of ICT based highway traffic safety assessment" in clause 5.3. Ms. Namrata Singh, ADG (IoT), TEC presented her contribution on this work item in clause 5.2. Mr. Dhanesh Goel, ADG (TC & MT), TEC and Mr. Srikanth Vaddepally, ADG, TN LSA, DoT presented their contribution on this work item in the appendix section. Mr. Dhanesh Goel and Mr. Srikanth Vaddepally were requested to send the updated contributions based on the queries raised/ suggestions given by members during the meeting.
 - iii. Ms. Namrata Singh, ADG (IoT), TEC and Mr. Aurindam Bhattacharya, C-DOT jointly presented their contribution on the proposed new work item ITU-T Y.TrustFrwk "Trust framework for secured IoT ecosystem". The proposal was agreed by the members.
 - iv. Mr. Vineet Malik, ADG (PR-I), Media Cell, DoT presented his contribution on draft new recommendations ITU-Y Y.NTC.SEC.SOL, "National Trust Center - Comprehensive Secure by Design Framework for the Certification and Registration

of IoT Devices and Applications”. Queries were raised by the members during the meeting.

As this work item was similar to the work item mentioned at point iii above, with additional point of creating a Globally connected International Trust Center for IoT by ensuring interoperability among all NTC, DDG (IoT) requested him to have a short meeting with TEC and C-DOT to decide on future course of action for his proposed new work item. Based on the discussions held after the meeting and further suggestions received by members in NWG-20 meeting on 12th June 2024, it was agreed that it would not be prudent to take up this work item separately as well as to incorporate the point of global interoperability at the initial stage of proposal of new work item on Trust framework. However, Mr. Vineet Malik may continue to contribute on the work item as mentioned at point iii above, once it gets accepted in ITU.

- v. Mr. Tapan Kapoor, M/s Aviconn Solutions Pvt Ltd presented updated contribution on Revision of TD918 of work item ITU-T Y.CL-EDM “Energy data model for city-level energy management platform”, prepared jointly by him and TEC. The proposal was agreed by the members.
- vi. Mr. Atul Joshi, ADG (Technology), Haryana LSA, presented his contribution on Revision of TD1220 of work item ITU-T Y.IoT-RTPS “Requirements, capabilities and use cases of Internet of Things infrastructures in roadside traffic perception system”. The proposal was agreed by the members.
- vii. Mr. Vivan Bawra, RA (IoT Division), TEC presented the contribution on Revision of TD1178 of work item ITU-T Y.isms “Functional framework and requirements for disaster monitoring system”. The proposal was agreed by the members.

These contributions were circulated to all NWG-20 members for comments/ inputs (if any) on priority by 10th June 2024. No inputs have been received from the members. Further, the contributors were also requested to update their contributions, based on the feedback/ suggestions received during the meeting and send updated draft by 10th June 2024. Updated contributions received from the contributors will be taken into consideration for taking necessary approval.

- 3. Mr. Sushil Kumar, Addl. DGT, NE LSA, DoT appreciated that large number of contributions are being submitted from India in this ITU-T SG-20 meeting. He mentioned that continuous and dedicated efforts of a team are required for getting a new work item created in ITU and further getting it to the approval stage. Contributing at international level is a continuous learning process. The four contributions submitted in ITU-T SG20RG-AP meeting, 22-23 April 2024 were further submitted as contribution and discussed in respective Question level Rapporteur’s meeting in May 2024. It is proposed to submit further contributions on these work items in the upcoming ITU-T SG-20 meeting, 1-12 July 2024.
- 4. The following contributions were discussed and presented in the NWG-20 meeting held on 12th June 2024-

- i. Mr. Sharad Arora, Mashmari, presented the contribution on Revision of TD1225 of work item ITU-T Y.RemoteEd: "Requirements, capabilities and architectural frameworks for e-learning in remote classrooms". The proposal was agreed by the members.
- ii. Mr. Pranav Singh, M/s IDEMIA, Mr. S. K. Bhalla, DDG, NE LSA and Mr. Sushil Kumar, Addl. DGT, NE LSA, DoT presented their contribution on Revision of TD1188 of work item ITU-T Y.Sec-outdoor-EPI "Security requirements and capability of IoT Management platform for outdoor electric power infrastructure". The proposal was agreed by the members.
- iii. Mr. Sushil Kumar, Addl. DGT, NE LSA, DoT and Mr. Pranav Singh, M/s IDEMIA presented their contribution on Revision of TD1187 of work item ITU-T Y.IoT-acsfra "Functional requirements and architecture of access control service of IoT platform enabled by zero trust technology in decentralized environments". The proposal was agreed by the members.
- iv. Mr. Sushil Kumar, Addl. DGT, NE LSA, DoT and Mr. Pranav Singh, M/s IDEMIA presented their contribution on Revision of TD1226 of work item ITU-T Y.PGCommNet-Reqts "Requirements of IoT - based power grid communication network". The proposal was agreed by the members.
- v. Mr. Sushil Kumar, Addl. DGT, NE LSA, DoT presented the contribution on Revision of TD1228 of draft Supplement ITU-T Y.Sup.SmartAqua-usecases "Use cases of IoT-based smart aquaculture". The proposal was agreed by the members.
- vi. Mr. Raghav Purwar, ADET (IoT) TEC, Mr. Srikanth Vaddepally, ADG, TN LSA, DoT and Mr. Dhanesh Goel, ADG (TC & MT), TEC presented their contribution Revision of TD930-R3 of work item ITU-T Y.IoT-BEMS-af "Assessment framework of IoT infrastructure in building energy management system." The proposal was agreed by the members.

These contributions were circulated to all NWG-20 members for comments/ inputs (if any) on priority by 12th June 2024 EOD. No inputs have been received from the members.

5. DDG (IoT) concluded by mentioning that twelve draft contributions on the following work items have been agreed for submission in the upcoming ITU-T SG-20 meeting, Geneva, 1-12 July 2024-
 - i. ITU-T Y.IoT-SQMS "Requirements and functional architecture of IoT sensing quality management service"
 - ii. ITU-T Y.PGComNet-Reqts "Requirements of IoT-based power grid communication network"
 - iii. draft Technical Report ITU-T YSTR.HTSA-overview "Overview of ICT based highway traffic safety assessment"

- iv. Proposed new work item ITU-T Y.TrustFrwk "Trust framework for secured IoT ecosystem"
- v. ITU-T Y.CL-EDM "Energy data model for city-level energy management platform"
- vi. ITU-T Y.IoT-RTPS "Requirements, capabilities and use cases of Internet of Things infrastructures in roadside traffic perception system"
- vii. ITU-T Y.isms "Functional framework and requirements for disaster monitoring system"
- viii. ITU-T Y.RemoteEd: "Requirements, capabilities and architectural frameworks for e-learning in remote classrooms"
- ix. ITU-T Y.Sec-outdoor-EPI "Security requirements and capability of IoT Management platform for outdoor electric power infrastructure"
- x. ITU-T Y.IoT-acsfra "Functional requirements and architecture of access control service of IoT platform enabled by zero trust technology in decentralized environments"
- xi. draft Supplement ITU-T Y.Sup.SmartAqua-usecases "Use cases of IoT-based smart aquaculture"
- xii. ITU-T Y.IoT-BEMS-af, "Assessment framework of IoT infrastructure in building energy management system"

In the end, DDG (IoT) thanked all the contributors and participants for attending the meeting.

This is issued with the approval of DDG (IoT).
