1. National Working Group 13 – corresponding to ITU-T SG13: Future networks and emerging network technologies

The NWG13 considered input contributions during its virtual meeting held on 20th September 2023 under the chairmanship of Shri Piyush Chetiya, DDG (MT), TEC. The group adopted the agenda in **NWG13-Agenda-5-R1**.

The objectives for this meeting were:

- To review the progress of on-going work items in ITU-T SG13 (Y.Arch_NGNe_ncp, Y.Trust-Registry);
- To discuss others (based on contribution received - Request to TSB to conduct an analysis for the A.5 qualification of the O-RAN Alliance, creation of a Focus Group on Artificial Intelligence in 6G).

NWG13 discussed 4 contributions. At the meeting, NWG13 produced 5 output documents including this meeting report.

The main results of the meeting are the following:

- a) The updated text for the draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”;
- b) The updated draft Recommendation ITU-T Y.Trust-Registry, Trust Registry for Devices and Applications: requirements, architectural framework;
- c) The draft recommendation Request to TSB to conduct an analysis for the A.5 qualification of the O-RAN Alliance;
- d) Contribution for creation of a Focus Group on Artificial Intelligence in 6G;
- e) NWG13 meeting report (**NWG13-Report-04**).

2. Results

2.1 Contributions for Approval

Four contributions were presented by respective contributors for consideration of NWG13, so that the same could be submitted to ITU-T SG13 after approval of Competent Authority within the prescribed deadline of 10th October 2023 for deliberation in 23 October - 3 November 2023 meeting at Geneva.

2.2 Other documents for Approval

No Appendices, Supplements, Implementers’ Guides or Technical Papers were proposed by NWG13 for approval at this meeting.

3. Outgoing liaison statements

No outgoing liaison statements were proposed by NWG13 for approval at this meeting.

4.1. Y.Arch_NGNe_ncp

Base document: **SG13-TD140/WP3**

C-XX1	Rashmi Kamran	Draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”.	Q2/13
-------	---------------	---	-------

- This contribution proposes updated text for the draft new Recommendation ITU-T Y.Arch_NGNe_ncp: “Architectural evolution for NGN control plane by applying SDN technology”.

Meeting result

- The meeting agreed to accept the proposed text in the contribution with minor editorial changes.

4.2. Y.Trust-Registry

Base document: **Q16-13-Jan23-DOC-46-Y.Trust-Registry**

C-XX2	Sharad Arora	Draft Recommendation ITU-T Y.Trust-Registry: “Trust Registry for Devices and Applications: requirements, architectural framework”.	Q16/13
-------	--------------	--	--------

- This contribution proposes updated text for the draft Recommendation ITU-T Y.Trust-Registry: “Trust Registry for Devices and Applications: requirements, architectural framework”.

Meeting result

- The meeting agreed to accept the proposed text in the contribution with minor editorial changes.

4.3. Request to TSB to conduct an analysis for the A.5 qualification of the O-RAN Alliance

C-XX3	Vishnu Ram O.V./Piyush Chetiya/Sujit Kumar	Request to TSB to conduct an analysis for the A.5 qualification of the O-RAN Alliance	Q All/13
-------	--	---	----------

- This contribution requests ITU TSB to conduct an analysis of A.5 qualification of the O-RAN Alliance.

Meeting result

- The meeting agreed to accept the proposed text in the contribution.

4.4 Contribution for creation of a Focus Group on Artificial Intelligence in 6G

C-XX4	Vishnu Ram O.V./Piyush Chetiya/Sujit Kumar	Contribution for creation of a Focus Group on Artificial Intelligence in 6G	QAll/13
-------	--	---	---------

- International Telecommunication Union (ITU) has approved the 6G vision framework. The usage scenarios identified by ITU for 6G needs an analysis of AI techniques which will enable these scenarios. This document, is proposing to create a focus group to study the integration of AI in 6G, building upon the previous work of ITU such as FG ML5G and FG AN. The new focus group will study the network impacts of integration of AI in 6G, the relevant AI techniques themselves and the integration and validation mechanisms for such techniques.

Meeting result

- The meeting agreed to accept the proposed contribution, with addition of some texts suggested by Shri A S Verma.

4.5. Incoming liaisons, and others

None.

5. Closure

The NWG13 Chairman thanked the members for their participation in the NWG13 activities to progress the work, editors and contributors for their support and active involvement during this meeting.
